## Thank you

Thank you for signing up for a demo of our platform.

We will be reaching out to you soon to coordinate this.

In the meantime, take a Guided Tour of our Dashboards

# Real-Time Treasury Insights: A Guided Tour of Our Dashboards

In today's fast-paced financial environment, treasury teams need accurate, real-time information at their fingertips to make confident, timely decisions. At CS Lucas, we've built a suite of dashboards that provide exactly that—clear visibility, flexible reporting, and powerful forecasting tools.

To give you a closer look, we've created a **short video walkthrough** highlighting just a few of our dashboards in action.

#### ☐ Watch the Video Tour Below

In this guided tour, Isabella from our team walks through two key dashboards:

- Cash Position Dashboard Instantly shows your group's total liquidity and breaks it down by entity, currency, and bank
- Cash Forecast Dashboard Visualizes projected cash flows and highlights upcoming surpluses or shortfalls

#### **Just the Beginning**

This video features only a **small sample** of the dashboards available in CS Lucas. The full platform includes tools for managing funding, investments, risk

exposures,	and more—des	igned to	support	both	day-to-day	treasury	operations
and strateg	ric planning.						

### $\ \square$ Ready to experience better treasury visibility?

Watch the video now and get in touch to explore our full dashboard suite.
