

Thank you

Thank you for signing up for a demo of our platform.

We will be reaching out to you soon to coordinate this.

In the meantime, take a Guided Tour of our Dashboards

Real-Time Treasury Insights: A Guided Tour of Our Dashboards

In today's fast-paced financial environment, treasury teams need accurate, real-time information at their fingertips to make confident, timely decisions. At CS Lucas, we've built a suite of dashboards that provide exactly that—clear visibility, flexible reporting, and powerful forecasting tools.

To give you a closer look, we've created a **short video walkthrough** highlighting just a few of our dashboards in action.

□ **Watch the Video Tour Below**

In this guided tour, Isabella from our team walks through two key dashboards:

- **Cash Position Dashboard** - Instantly shows your group's total liquidity and breaks it down by entity, currency, and bank
- **Cash Forecast Dashboard** - Visualizes projected cash flows and highlights upcoming surpluses or shortfalls

Just the Beginning

This video features only a **small sample** of the dashboards available in CS Lucas. The full platform includes tools for managing funding, investments, risk

exposures, and more—designed to support both day-to-day treasury operations and strategic planning.

□ **Ready to experience better treasury visibility?**

Watch the video now and get in touch to explore our full dashboard suite.
