

Webinar: Keeping your Information Secure 2PM SGT

WEBINAR

Keeping your Information Secure

Webinar Outline

At CS Lucas, we understand that a security breach is a costly disaster that can compromise operations and damage consumer trust. We will be focusing on evaluating treasury applications to avoid the risk of breaches in departments. This will be geared towards corporate treasurers and security officers.

We'll be discussing:

- Security Risks
- Best Practices
- Shared Security Responsibility
- ISO2700 Walk-through

Vice President of CS Lucas, Don Escuro, will be hosting this webinar for corporate treasurers and security officers on Nov 6 at 2PM SGT.
