

Webinar: A Guide to Cash Forecasting in a Crisis 2PM SGT

WEBINAR

A Guide to Cash Forecasting in a Crisis

Webinar Outline

The ongoing pandemic has taught us that future proofing is a key skill set that a Treasurer needs in order to see their company through difficult times. Restructuring your treasury functions to respond to crisis requires modernization, flexibility and preparation. We'll be discussing the best strategies for cash forecasting, automation and collaborative working in order to respond to imminent threats.

This event will be hosted by Ivan Parayno, Lead Software Engineer at CS Lucas, on 26 Feb, 2PM SGT.
