

Webinar: How to make the move from spreadsheets to Treasury Management Systems 2PM GMT

WEBINAR

How to Make the Move from Spreadsheets to Treasury Management Systems

Webinar Outline

Digital landscapes make dealing with payments, across multiple currencies and banking relationships easier to visualize and quicker to execute. In order to fully utilize the speed digitization offers, we need to say goodbye to manual spreadsheets and move towards Treasury Management Systems that support total cash visibility, seamless connectivity and securely hosted data.

This event will be hosted by CS Tan, CEO of CS Lucas on 26 March, 2PM GMT.
