9. Fill out the additional fields, if needed. The information entered for the beneficiary's bank name and account number are used in the confirmation letter or settlement letter sent to the banks.

10. You may enter any e-banking codes in the EBAAddress field. This information will also appear in the confirmation or settlement letter.

11. Auto Balance Update option is No by default. If this is set to No, you will be able to update the actual cash balance in the Cash Management > Actual Cash screen. If you do not wish to allow anyone to edit the actual cash balance as it will be automatically update from MT940, set this to Yes.

12. Click Save to complete the set up.

13. On the Accounting Centre SSI screen, click on the box on the left of the set up SSI.

The screenshot shows the 'Accounting Centre SSI' interface. At the top, there are filters for Entity (TFS-SG), Bank, Ccy, Product, and Portfolio. Below these are buttons for Refresh, Action, SSI Group, Signatory, and Counterparty SSI. A search bar is also present. The main table lists SSI records with columns: Entity, Bank, Ccy, Account Name, Account No, Ccy D, Ctpy D, TP, Portfolio, and Product. The first record is highlighted in blue. An 'Action' dropdown menu is open, showing options: Approve, Delete, Export CSV, and Export PDF.

FREQUENTLY ASKED QUESTIONS

FAQ01. I cannot create a new SSI.

Access rights are required to create a new SSI. Please speak to your administrator to grant you rights 10721 to Create Accounting Centre SSI (basic), and 10718 for Create Accounting Centre SSI (advance).

FAQ02. Is there any standard for creating SSI?

Please refer to [FAQ on the standard settlement instructions](#).

FAQ03. Setting up duplicate SSI with same account number and currency.

By default, duplicate SSIs with same account number and currency are not allowed.

To Allow Duplicates:

Click on the existing SSI short name.

Click the **Preference** button.

Set **Allow duplicate?** to “Y”.

Save the changes.

You can now create a new SSI with the same currency and account number.

Important Notes:

Only one record needs the “Y” setting to enable duplicates for that account and currency.

To disable duplicates:

Delete any unnecessary duplicate records first.

On the remaining record, change **Allow duplicate?** to “N”.

Warning:

Duplicate SSI is STRICTLY PROHIBITED when account is being updated by MT940.

Attempting to use duplicate SSI with MT940 will result in failure.
