

CHANGE LOG 2019 Q3

SYSTEM CHANGE LOGS

4_14_06_521 – 28 Aug 2019

Enhancement on Amend User screen for logged-on user to enter his/her password when amending user details to ensure it is indeed the real logged-on user requesting for change of user details.

4_14_06_520 – 23 Aug 2019

Enhancement on creating New Payment Type screens.

4_14_06_519 – 23 Jul 2019

Bug fix on page error when amending or creating trades with the same From and To Acct Cntr on Cash Transfer screen.

Enhancement to hide Ctpy Division of the From and To Acct Cntr as both are the same for Cash Transfer trade. No Ctpy Division is saved as there is no interco transaction created.

4_14_06_518 – 19 Jul 2019

Bug fix to check client IP against whitelisted IPs set up in the system when login via SS0.

Bug fix on page navigation from index.html to home.xhtml upon IP/machine/browser is verified successfully during login process.

Bug fix on logout via SS0.

4_14_06_517 – 15 Jul 2019

Enhancement to write MT940 Load Error to a file on the server. File location is set to C:\Belsize\Integration\MT940\Log

4_14_06_516 – 15 Jul 2019

Enhancement for Work Flow Manager static screens.

4_14_06_515 – 10 Jul 2019

Enhancement on user report set up configurations to be restricted to CSL developers only.

Bug fix to prevent rich text editor from stored cross scripting.

4_14_06_514 – 2 Jul 2019

Enhancement to deprecate MISCASHDETAIL table to simplify the Fees and Cash Transactions ER structure.
