

Enhancement Policy

PURPOSE

To outline CS Lucas policy enhancements.

WHY IS THIS IMPORTANT?

CS Lucas is systematically updated for new features, performance enhancements, security patches and bug fixes. The document explain how we update and communicate new versions.

GENERAL GUIDELINES

1. We will announce within the first week of each calendar quarter .
2. In this announcement we will indicate:
 - Version number
 - Estimated due date of the general release of the version. This is typically within the first month of the quarter.
 - Where middleware system are updated, we will include all fixes that are generally available up to the date of the announcement.
