

# Exchange Rate Administration

[See previous W5 version guide](#)

## **PURPOSE**

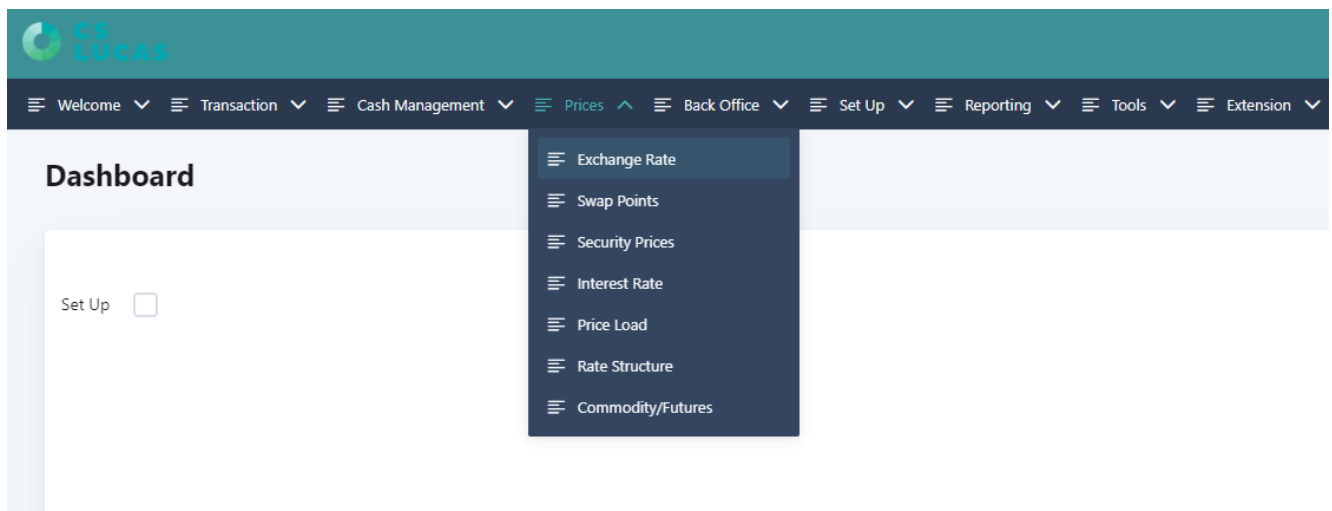

This document shows the procedure for exchange rate administration.

## **WHY IS THIS IMPORTANT?**

Exchange rate administration is used to lock and approve exchange rates. This prevents unauthorized users from making changes to rates without proper authority. With the rates being approved, then the system can perform key scheduled functions, such as posting of accounting journals to an external accounting system.

## **PROCEDURE**

1. From the main menu, go to Prices > Exchange Rate.

2. Click on Admin. The Exchange Rate Administration screen launches.

6. To unlock rates previously locked, tick on the box for Unlock. The system displays a date that can be used to determine what date to unlock the rates.

7. In this example, we will enter 1-Sep-2016, as that was the last date when the rates were locked.
