

Getting Prices in Bloomberg (W5)

[This version is superseded. Click here to view the latest guide.](#)

PURPOSE

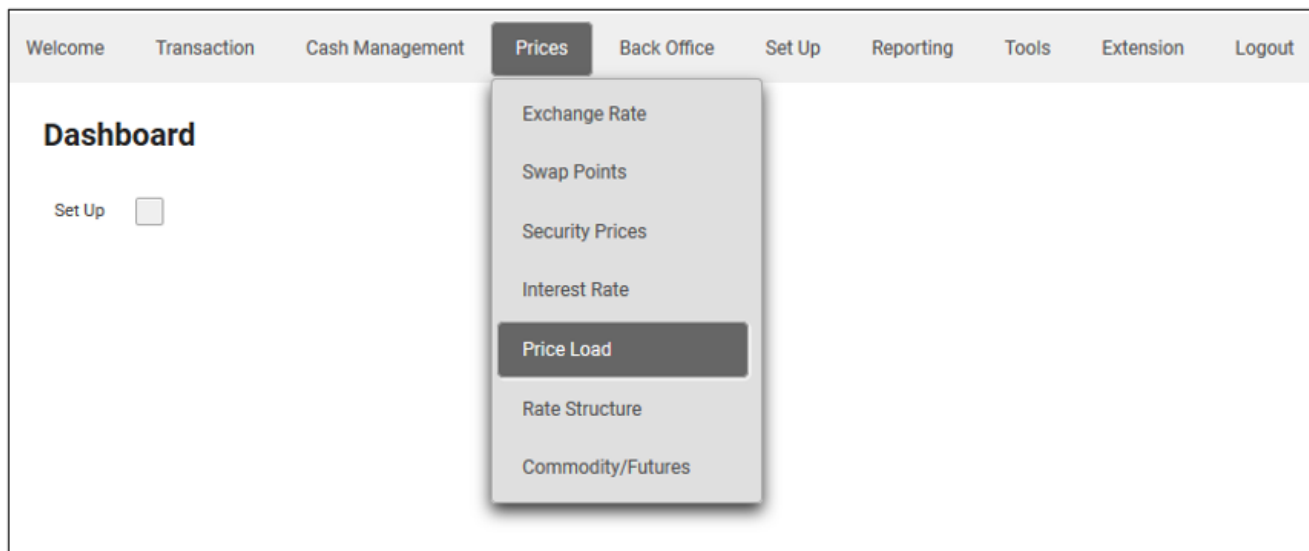

This document is a detailed procedure on how to retrieve currency/ security prices and counterparty/ security credit ratings from a Bloomberg terminal into CS Lucas system.

WHY IS THIS IMPORTANT?

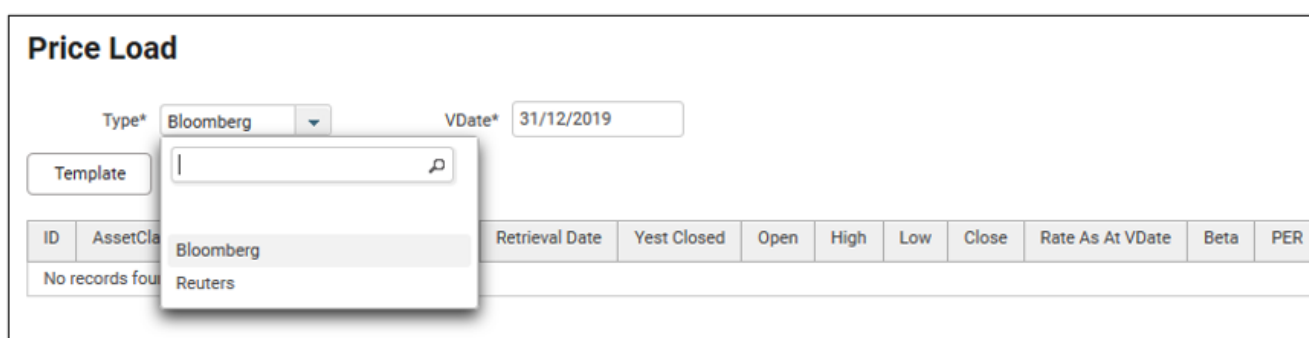

Using the Bloomberg price load makes it easier for the currency/ security prices and counterparty/ security credit ratings information to be retrieved from Bloomberg in one template for the selected VDate and loaded into CS Lucas system.

PROCEDURE

1. From the Bloomberg terminal, browse to the CS Lucas application.
2. Go to Prices > Price Load.

3. In the Type field, select Bloomberg.

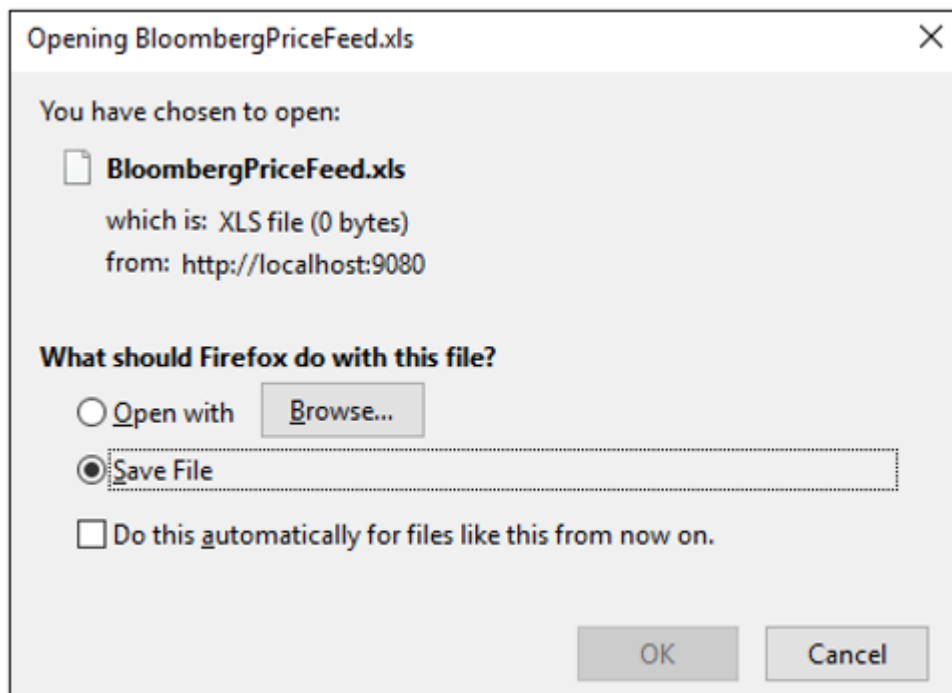

4. Input the preferred date in the VDate field and click on Template. System will get the prices for this date.

5. On the pop up that appears, click Ok.

6. File download prompt will appear to save the file as displayed below. Save the template on the Bloomberg terminal.

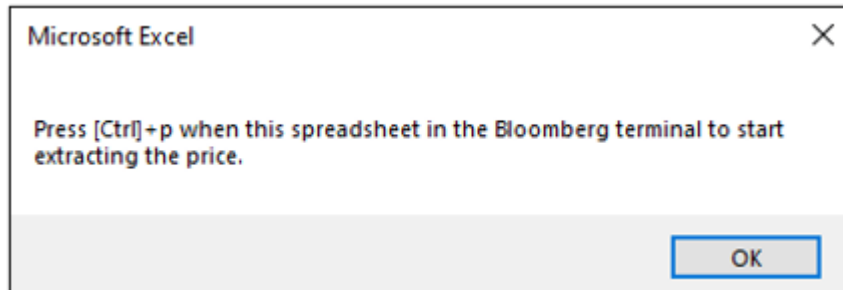

7. Open the saved file. The template would be already populated with all the available currencies and securities in the CS Lucas system.
