# Getting Prices in Bloomberg (W5)

This version is superseded. Click here to view the latest guide.

#### **PURPOSE**

This document is a detailed procedure on how to retrieve currency/ security prices and counterparty/ security credit ratings from a Bloomberg terminal into CS Lucas system.

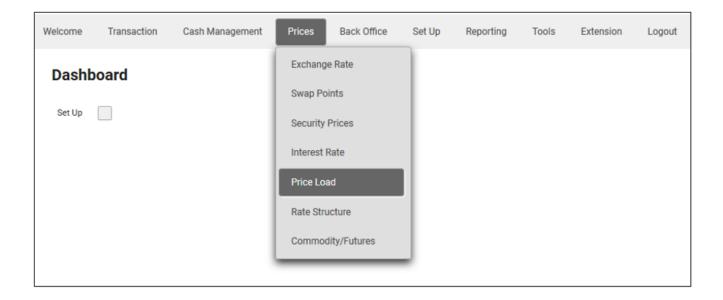

#### **WHY IS THIS IMPORTANT?**

Using the Bloomberg price load makes it easier for the currency/ security prices and counterparty/ security credit ratings information to be retrieved from Bloomberg in one template for the selected VDate and loaded into CS Lucas system.

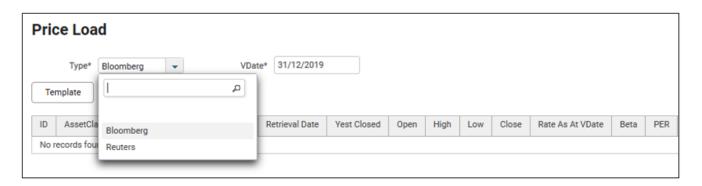

### **PROCEDURE**

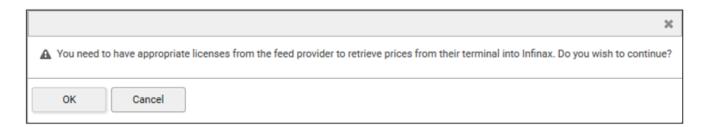

- 1. From the Bloomberg terminal, browse to the CS Lucas application.
- 2. Go to Prices > Price Load.

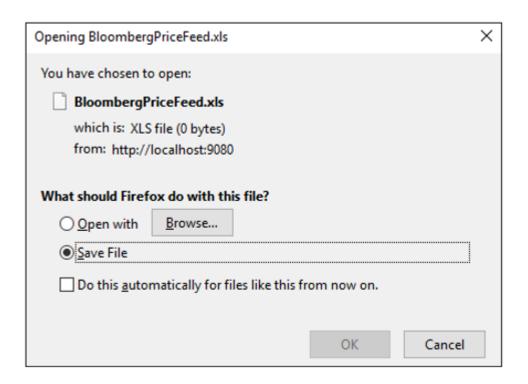

3. In the Type field, select Bloomberg.

- 4. Input the preferred date in the VDate field and click on Template. System will get the prices for this date.
- 5. On the pop up that appears, click Ok.

6. File download prompt will appear to save the file as displayed below. Save the template on the Bloomberg terminal.

7. Open the saved file. The template would be already populated with all the available currencies and securities in the CS Lucas system.

Field	Description
AssetClass	Either "CURRENCY" or "SECURITY"

Currency or the Security Shortname. **Note**: To retrieve counterparty credit ratings, please need to create a new Equity type of security. For example, "DBS SP Equity". To link the security created for this counterparty, enter "DBS SP Equity" in the "Listed Security Shortname" field in the Counterparty Preference screen. Navigate to Set Up > Static > Counterparty. Click on counterparty short name. Click on Preference button. **Counterparty Preference** DBS-SG Ticker/Ccy Preference \$ Value ≎ AcctCntr/Ctpy Group Branch Code E-banking Encryption Method E-banking Encryption OpenPGP PK Recipient E-banking FTP Profile (User) E-banking File Path Integration ID Listed Security Shortname **DBS SP Equity** Trading Partner Code For currency, it will display Currency + Enterprise Currency + "Curncy". For e.g. AUDSGD Curncy For security, it will display the Bloomberg Price Feed Code setup in the Symbol security details, for e.g., OCBCR2 EQUITY. If this is not available, then the shortname will be displayed with square brackets, for e.g., [OCBC RTS1 **VDate** User selected VDate. Retrieval Date Today's date.
