

Hedging: Product

[See the previous W5 version guide.](#)

PURPOSE

This document shows the detailed procedure of maintaining hedging products.

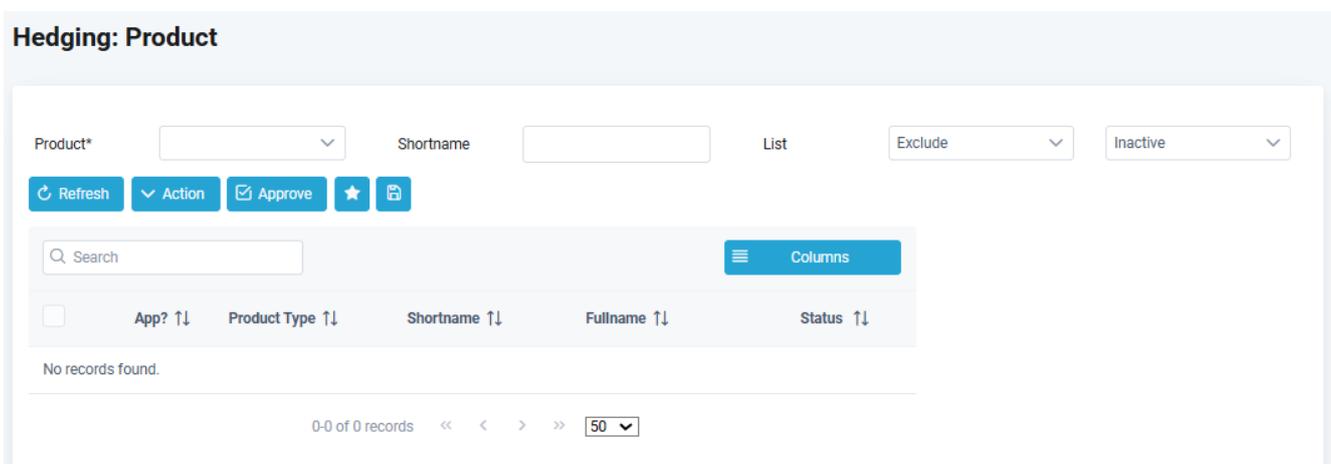

WHY IS THIS IMPORTANT?

Hedging products need to be setup beforehand before allow booking of the hedging transactions.

PROCEDURE

1. From the main menu, click Transaction > Hedging > Maintenance > Product. The page below displayed.

2. To create new hedging product, click Action > New. The “Hedging: New Product” page displayed.

Hedging: New Product

Product*	<input type="text" value=""/>
Shortname*	<input type="text" value=""/>
Fullname*	<input type="text" value=""/>
Trade Ccy*	<input type="text" value="SGD"/>
Trading Unit*	<input type="text" value="-"/>
Comments	<input type="text" value=""/>

3. Select commodity or futures from the Product drop down field.
4. Enter a short name for the commodity or futures.
5. Enter the full name of the commodity or futures.
6. Select the trade currency.
7. Select the trading unit. This field is user definable and for information only. If you do not see the desired trading unit, please create under Set Up > User Definable > Trading Unit. See [how to create user definable field](#) for more details.
8. If the product selected is a futures, you need to also enter the delivery date.

Delivery Date*
