

Importing Operational Forecast (List) (W5)

[This version is superseded. Click here to view the latest guide.](#)

PURPOSE

This document contains the detailed procedures for importing list of operational forecast into the system.

WHY IS THIS IMPORTANT?

These steps provide an easier way to bulk upload forecasts to reduce efforts in maintaining forecast in CS Lucas system.

PROCEDURE

1. From the main menu, click Cash management > Forecasting > Operational > List. The Operational Forecast (List) screen is displayed as below.

A screenshot of a web application interface titled "Operational Forecast (List)". It features several input fields: "Acct Cntr*" with a dropdown menu showing "TFS-SG", "Ccy/SSI*" with a dropdown menu, "Cycle*" with a dropdown menu showing "-ACTUAL-", "From Date*" with a text input field containing "dd/mm/yyyy", and "To Date*" with a text input field containing "dd/mm/yyyy". Below these are "Section/Category" and "Source*" dropdown menus, with "Source*" showing "-DEFAULT-". At the bottom, there are buttons for "Refresh", "Import", a download icon, a star icon, a print icon, and a checkbox labeled "Cut and Paste".

2. Click on Import button . The Import Operational Forecast (List) screen is displayed.

Import List Forecast

☐

ID	Date*	Section/Category/Description*	SSI*	Amount*	Source*	Cycle*	Comments
No records found.							

- Click Template to download the Load_Forecast_Template in Excel format to your computer.
- After the import template is successfully downloaded, open the import template.
- Save the file and open. An Excel sheet will be opened.

	A	B	C	D	E	F	G
1	Date*	Section/Category/Description*	SSI*	Amount*	Source*	Cycle*	Comments
2							
3							

- Fill in the columns. Make sure all mandatory columns are filled, these are characterized with an (*). The explanation of the fields are as below:

	A	B	C	D	E	F	G
1	Date*	Section/Category/Description*	SSI*	Amount*	Source*	Cycle*	Comments
2	2-Oct-17	1 Revenue/Hardware/Servers	TF-DB-SGD-OPS	3,649,662	-DEFAULT-	17.Q2.2	
3	2-Oct-17	3 Overheads/Utilities/Power	TF-DB-SGD-OPS	-1,636,207	-DEFAULT-	17.Q2.2	
4							

Field	Remarks
Date*	Date of forecast. Any date format that is valid in Excel.
Section/Category/Description*	Ensure section/category/description are valid and exist in the system.
SSI*	Ensure SSI short name is valid and exists in the system.
Amount*	Forecast amount.
Source*	Ensure source is valid and exists in the system.
Cycle*	Ensure cycle is valid and exists in the system.
Comments	Enter any comments. This field is optional and allows up to 100 characters.

- System checks the following during import:
 - Mandatory fields.
 - Invalid SSI, Date, Amount, Section/Category/Description, Cycle and Source. Ensure SSI, Section/Category/Description, Cycle and Source are valid and exist in the system. Ensure Date and Amount format are valid.

c) Forecast cycle is locked and updating is not allowed.

d) Forecast not within the forecast cycle.

8. Go back to the Import Operational Forecast (List) screen. Tick on the Read File box.
