

Importing Swap Points (W5)

[This version is superseded. Click here to view the latest guide.](#)

PURPOSE

This document explains the detailed steps on how to import swap points in the system.

WHY IS THIS IMPORTANT?

Importing swap points is important because it saves time inputting multiple swap points in the system.

PROCEDURE

1. From the main menu, click Prices > Swap Points.

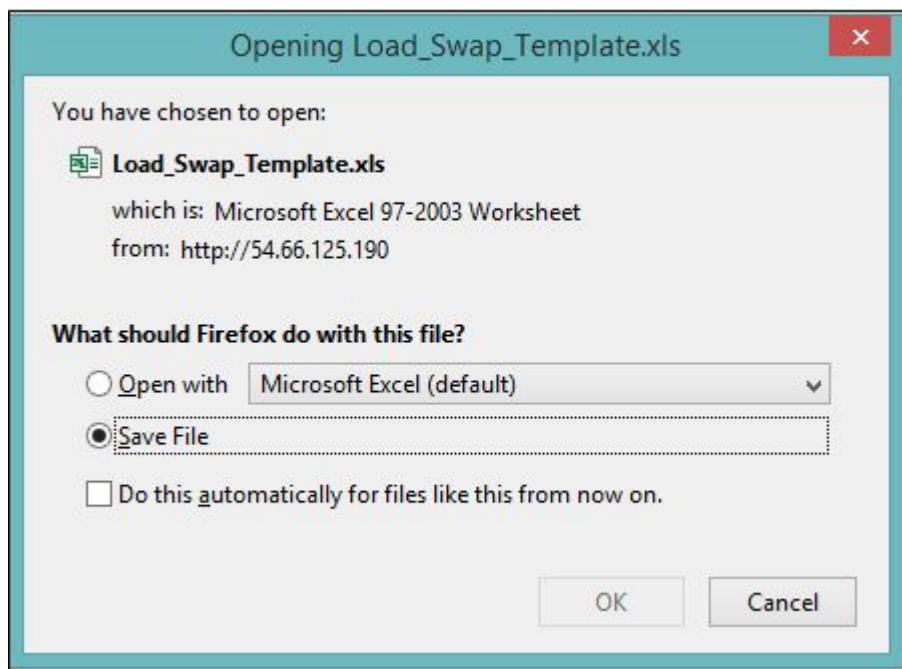

The screenshot shows the 'Swap Point' screen. At the top, there are fields for 'VDate*' (set to 30/01/2007) and 'Ccy and Pairs' (a dropdown menu). Below these are several buttons: Refresh, Add, Copy, Save, Delete, History, Admin, and a set of icons for download, star, and print. There is also a 'Copy To*' field with a date input field (dd/mm/yyyy). The main area shows a table with columns for 'Ccy/Pairs', 'Tenor', 'Bid/Buy/Long', and 'Offer/Sell/Short'. A message 'No records found.' is displayed. At the bottom, there are navigation buttons for page navigation and a dropdown menu set to '50'.

2. Click Add. The new Swap Point screen will be displayed.

New Swap Point

Ccy and Pairs*	<input type="text"/>
Date*	<input type="text" value="dd/mm/yyyy"/>
Tenor*	<input type="text"/>
Bid*	<input type="text"/>
Offer*	<input type="text"/>

3. Click Import.
4. Click Template to download the Excel file Load_Swap_Template. Save the file.

5. Open the Load_Swap_Template file and fill out the fields. All the fields marked with an asterisk are mandatory before importing. See Creating and [Maintaining Swap Points](#) for explanation on the fields.

File	Home	Insert	Page Layout	Formulas	Data	Review	View
Paste	Arial 10	A A	Wrap Text				
	B I U	Font					
Clipboard							
A1		X ✓ f _x	VDate*				
1	VDate*	Ccy*	Tenor*	Bid*	Offer*		
2							
3							
4							

6. Save the Excel file locally on the computer.
7. Back to the system, tick on the Read File checkbox.

Import Swap Points

ID	VDate*	Ccy	Tenor	Bid*	Offer*
No records found.					

8. Click Choose File and look for the Excel file that was previously saved. Then, click on Read File the button to read the Excel file.
9. The information on the file will be displayed on the screen.

Import Swap Points

ID	VDate*	Ccy	Tenor	Bid*	Offer*
1	2 May 2016	SGD	1 month	12.000000	11.000000
2	2 May 2016	GBP	1 month	12.000000	11.000000
3	2 May 2016	USD	1 month	12.000000	11.000000

10. If there is an error, the system will prompt the user as to which row has the error. If there are no errors, you will see the Load button. When you click Load, a pop-up appears.

11. Click Ok. You will see the message “Swap points have been successfully loaded.”

Import Swap Points
