

# Money Market Confirmation (W5)

[This version is superseded. Click here to view the latest guide.](#)

## **PURPOSE**

This document sets out a detailed procedure for how to confirm money market transactions.

## **WHY IS THIS IMPORTANT?**

Confirmation involves sending out a confirmation letter to an external trade counterparty to confirm the financial instruments booked. This is important because the transaction will not be completed without confirmation.

## **PROCEDURE**

1. From the Money Market screen, select the transaction to confirm by checking the tick box next to it.

2. Note that transaction needs to be verified and authorized before confirmation can be done. Check the icons in the Flag column to determine which process was done. This letter V, A and C means the transaction is Verified, Authorized, but not yet Confirmed.
