

Portfolio Preference Set Up

[See previous W5 version guide](#)

PURPOSE

This document shows the detailed procedure for setting preferences for a portfolio.

WHY IS THIS IMPORTANT?

These preferences set up determine how the system would work for certain functions in the system.

PROCEDURE

1. To navigate to Portfolio Preference, click Set Up > Risk > Portfolio. The Portfolio screen displays.
2. Click on the Edit button of the portfolio in the listing to drill down to Amend Portfolio screen.
3. Click Preference. The Portfolio Preference screen displays.

Portfolio Preference

Exclude Accrual for Compliance Check	-
Exclude Cash for Compliance Check	-
Integration String	-

4. The following explain each of the preferences set up.

Divisions (D1/C1/P1,D2/C2/P2)

This set up allows tagging of accounting centre division (Business Areas/Cost Centres/Profit Centres) to portfolio which allows system to tag the accounting centre division to the month end journals of the investment portfolio trades for integration to external accounting system.

Click on the Divisions hyperlink.

The set up for the Divisions is in the format below:

[Business Area]/[Cost Centre]/[Profit Centre]

Exclude Accrual for Compliance Check

No

Q |

No

Yes

Click Update.

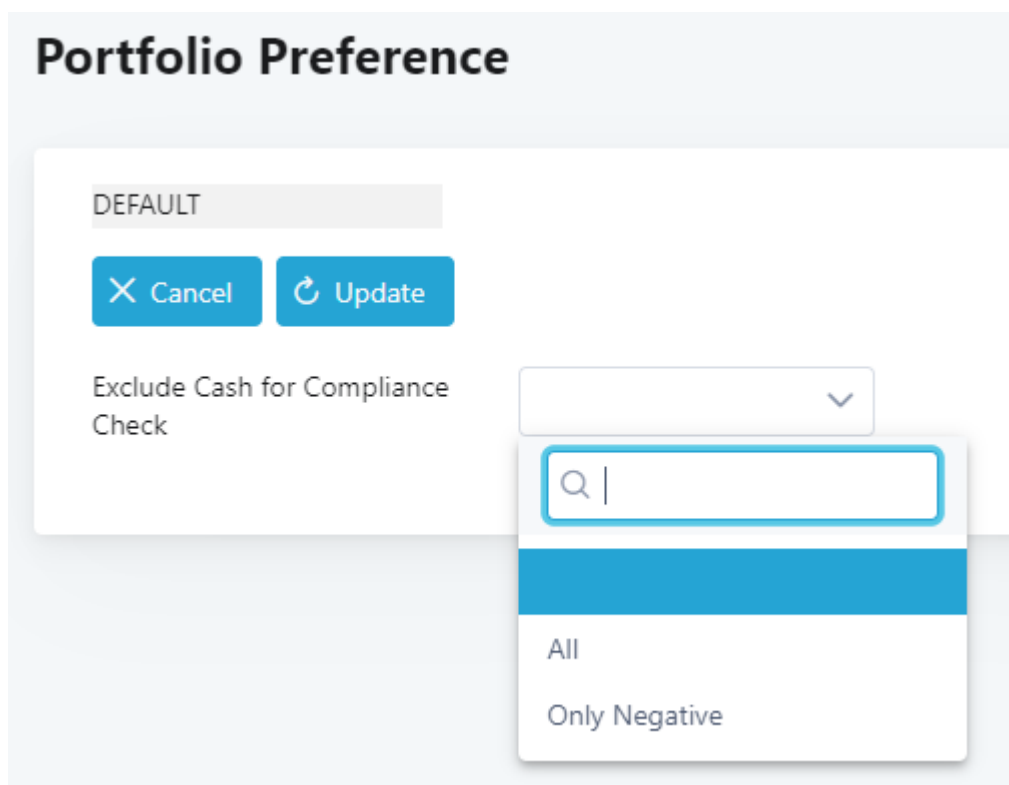

Exclude Cash for Compliance Check

This set up allows the system to exclude all cash or only negative cash in the compliance check.

By default, the cash are included in the compliance check.

To exclude all cash/ negative cash, click on the Exclude Cash for Compliance Check hyperlink.

Select “All” to exclude all cash or “Only Negative” to exclude only negative cash.

The screenshot shows a 'Portfolio Preference' dialog box. At the top, there is a 'DEFAULT' tab. Below it are two buttons: 'Cancel' (with a close icon) and 'Update' (with a refresh icon). Underneath these buttons is the text 'Exclude Cash for Compliance Check'. To the right of this text is a dropdown menu. The dropdown menu is open, showing a search bar with a magnifying glass icon and a list of two options: 'All' and 'Only Negative'. The 'All' option is currently selected and highlighted with a blue background.

Click Update.

Integration String

This set up is required for integration to ICD for MMF transactions or can be used in Bloomberg integration.

See how this should be set up for the portfolio in [ICD integration](#).

See how this should be set up for the portfolio in [Bloomberg preference set up](#).

FREQUENTLY ASKED QUESTIONS

FAQ01. What values are allowed for updating text and password fields on the Preference page?

The value entered must only contain letters (a-z, A-Z), spaces, numbers (0-9), basic punctuation marks (. , ! ?), square and round brackets ([] ()), and the following special characters: (: @ # % * + - _ = ~ /).
