

Reporting – Dashboard (W5)

[This version is superseded. Click here to view the latest guide.](#)

PURPOSE

This document shows the procedure on how to access and print dashboard in CS Lucas system.

WHY IS THIS IMPORTANT?

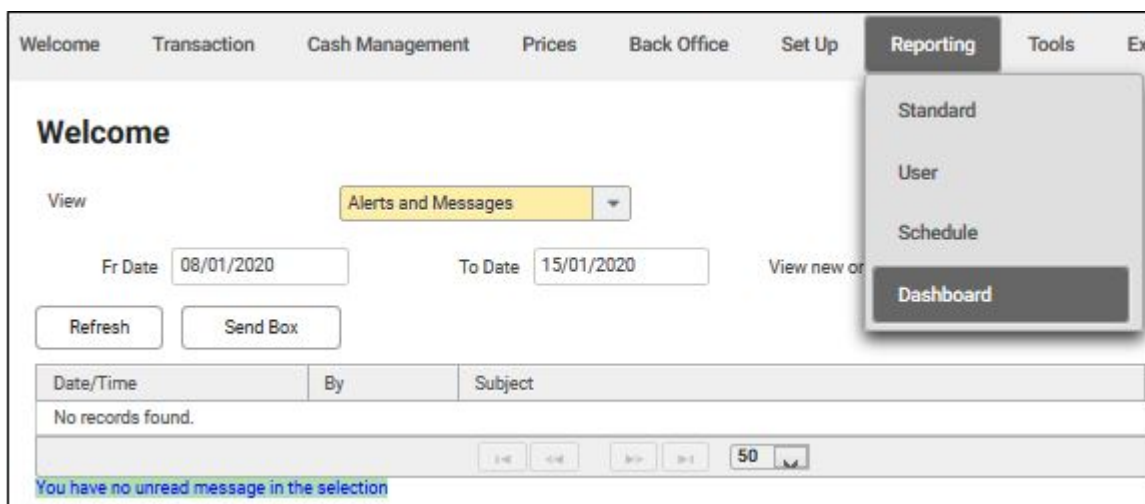

With the data captured in the system, system can generates or produces any kind of charts that is required for management reporting purposes.

PROCEDURE

Pre-requisite: To access Dashboard in CS Lucas, the following access rights are required.

Right ID ↕	Category ↕	Assigned Permission ↕
70270	Dashboard	Access Dashboard.
70291	Dashboard	Refresh Dashboard.

1. From the Main Menu, select Reporting > Dashboard.

2. The Dashboard screen displays.

Dashboard

	Chart Type ▾	Category ▾	Short name ▾	
<input type="checkbox"/>	Basic Line	-	Bank Balance - Time Series (in Mil)	Configure
<input type="checkbox"/>	Pie (Percentage)	-	Borrowing by Ccy	Configure
<input type="checkbox"/>	Pie (Percentage)	-	Borrowing by Counterparty	Configure
<input type="checkbox"/>	Stacked Column	-	Loan Position Maturity Profile: By Currency	Configure

3. If you do not see any chart available in this screen, this is because no chart has been downloaded to the system yet. You can find and download the available charts in CS Lucas Extension Store in the system by clicking on Extension from the main menu > Extension > Select Category as Dashboard. For more details on how to download charts from the Extension Store, see [CS Lucas Extension Store](#).

4. To print the chart from the Dashboard screen, click the short name of the chart desired. For example, Borrowing by Ccy.

Note that access rights is required to print each individual chart. To assign the access rights, go to Set Up > User and Rights > Group > Click on the desired user group > Assign Permission. Choose category: User Designed Report/Dashboard/Pivot Chart and click Refresh. You will see the list of charts access rights.
