

Tagging Risk Profile

[See previous W5 version guide](#)

PURPOSE

This document shows the detailed procedures on tagging risk profile for counterparty and security in CS Lucas system.

WHY IS THIS IMPORTANT?

Risk profiles that are tagged to security and counterparty in the system can be used for setting up rules to check for compliance in the system.

PROCEDURE

1. Risk profile tagging can be done for counterparty and security. In this example, tagging security risk profile will be shown.
2. Select Set Up > Static > Securities.
