Webinar: Managing Term Loans, Money Market, Investments & Forex

In todays day and age, restructuring your treasury functions through modernization, flexibility and preparation can allow for real time up-to-date reports that allow for improved short and long term decision making.

In this webinar, Zohain Saeed, our BDM for South-East Asia will be covering the management of the following topics using the CS Lucas system:

- Term Loans
- Money Markets
- Investments
- Foreign Exchange

Whether you are handling treasury management for your company or relying on the reports from your team, this webinar provides useful insights. We look forward to seeing you there.
